In the spring of 2015, Robert Greene received a $15,000 grant from the IdeaAdvance Seed Fund of UW-Extension in Madison in connection with a start-up company that I founded, The Gift of Tongues LLC (web site: thegiiftoftongues.com), to do market research and otherwise promote the company. The company is an attempt to bring the accelerated method of language learning that I have invented and developed to the public, and the scholarly side of it is that this method is based on a large amount of research that I have done in languages and Aristotelian philosophy.
